## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 9-16 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 9 , which include, a lens drive units having fixing body being equipped with a position retaining member to retain the movable lens body at a middle position of the entire motion range in the optical axis direction while touching section touching the movable lens body and one of position retaining member and movable lens body relatively moves so as to move the touching section so as to the touching section touch the movable lens body to retain the movable lens body at the middle position so that the number of retaining positions of the movable lens body increase from the two ends of the entire motion range.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
